

THE WOMEN'S COLLECTION

SHAPING YOUR TRANSFORMATION

100% Manufactured in the USA
CELEBRATING 20+ YEARS OF SERVICE AND INNOVATION

WHY DO YOU NEED RAINY RECOVERY WEAR?

Rainy Recovery Wear Compression Garments reduce the bruising and swelling during the early stages of recovery and promotes faster healing. Our garments deliver smoother results to the new contours of the patient's body.

1-2-3 POST-OP RECOVERY SYSTEM

As a patient progresses through each recovery step, they will need to transition to a different garment as the body's swelling is reduced. Each recovery step offers a garment with a different design function and feature. Rainey Recovery Wear's 1-2-3 Post-Op Recovery System ensures consistent compression throughout the entire healing process.

	STEP 1 SUPPORT	STEP 2 SCULPT	STEP 3 SLIM
WHEN TO WEAR	1 hour after surgery	1 week after surgery	4 weeks after surgery
DURATION OF WEAR	1-2 weeks	1-6 weeks	4-12 weeks
HOURS OF WEAR EACH DAY	24 hours	24 hours	12 hours
DESIGN FEATURE	DUAL-SIDE ZIPPER Simple donning and accessibility	ADJUSTABLE FRONT HOOK & EYE Adjust to tailored fit and delivers more compression	EASY PULL-ON Sized tighter to provide a long-term smoother slimmer result

BETTER FABRIC

Rainey Recovery Wear's Medical Grade Compression Fabric is engineered to deliver firmer compression than competitors. Our fabric is breathable, lightweight, and features a 4-way stretch, making it feel like a second skin!

 Antimicrobial

 Moisture Wicking

 Control 4-Way Stretch

 45% Nylon | 55% Lycra

Machine Washable on Cold and Air Dry

100% Manufactured in the USA

1-2-3 POST-OP RECOVERY SYSTEM

1

SUPPORT

A patient's body is swollen and sore and the incisions are seeping fluid. This garment is designed with Dual Side Zippers for easy donning and accessibility to maintain incision drainage pads and delivers the right amount of compression for immediate post-op recovery.

2

SCULPT

As a patient's body swelling continues to reduce, a patient needs to be able to adjust compression levels to their newly contoured body. The Front Hook & Eye design adjusts smaller to provide additional compression to create smoother results as a patient continues to heal.

3

SLIM

As a patient begins to engage in normal activity again, this garment provides additional compression to help maintain long-term results. This garment is easy to pull on and delivers more smoothing, slimming compression while maintaining a patient's smaller contoured body.

WOMEN'S FULL BODY

Rainey Recovery Wear Women's Full Body garments are excellent for post-op recovery from surgical procedures such as Mommy Makeover, Body Contouring Liposuction, Tummy Tuck, Abdominoplasty, Breast Reduction, and other procedures focusing on the upper back, shoulders, axilla, breasts, upper and lower abdomen, and flanks and hips. Coverage varies.

STYLES

- Step 1: Support
- Step 2: Sculpt
- Step 3: Slim

All styles are available in Boy Shorts, Mid Thigh, Knee Length, Capri Length, and Ankle Length.

STEP 1: SUPPORT

Designed with Dual Side Zippers for easy donning and accessibility to maintain incision draining pads and delivers the right amount of compression for immediate post-op recovery. Can be worn directly after surgery.
